

HOG ISLAND FAMILY CAMP SCHOLARSHIP APPLICATION

Once again, we are offering a full scholarship for one adult and a related child between the ages of 8-13 to the family camp on Maine's scenic Hog Island, a landmark of environmental education since 1936. The session's program will take place from August 12th to 17th, 2018 on the 330-acre island in mid-coast Maine's beautiful Muscongus Bay and will be led by some of the nation's most-respected naturalists and environment educators.

Either the adult or the child must be a resident of the area covered by NEPAS ...Lackawanna, Susquehanna, Wayne, and most of Pike County, Pennsylvania.

The Audubon Family Camp provides a wonderful opportunity for families to enjoy nature together. The pristine environment on Hog Island offers a wide variety of habitats for nature study. Campers cruise Muscongus Bay in search of seabirds and seals. They examine aquatic insects and amphibians in a freshwater pond, look for mushrooms and wildflowers in the forest, and search for fish and marine invertebrates along the intertidal zone. Evening programs include night hikes and stargazing. Each day begins with an optional early morning bird walk and ends with a family campfire program filled with songs, stories, and skits.

The camp is designed for families with children ages 8-13. A family unit includes at least one child and one adult. Grandparents, aunts, and uncles are welcome. Mid-August is an ideal time to enjoy the natural world in mid-coast Maine. Fall migration is starting, the salt marshes are changing colors, bioluminescence sparkles through the salt water, and the northern lights might be dancing across the sky. Experience an educational family vacation you will never forget.

Scholarship recipients must arrange for transportation to and from the Audubon Dock in Bremen, ME at the start and finish of this session.

This scholarship will be awarded based on the information provided on the attached application. For additional information visit: <http://hogisland.audubon.org/>
